BUSINESS MEN FAVOR ASSOCIATION EFFORTS

Y. M. C. A. BUILDING AT CHARLOTTE, N. C.

"Gaining headway every hour" is the report from the Y. M. C. A. concerning the progress of the movement to secure a new building. Every day a number are expressing their interest in the movement and being added to the list of boosters, while affirmative

replies to the banquet invitations for Monday night come steadily along and indicate that the banquet will be one of the best attended and most representative that has ever been held in Honolulu.

A few got the idea that tickets were being sold to raise money, but it was soon explained to them that the money went to the Young Hotel for the dinner, and that the gathering was not a money-raising project. The object of the dinner is to present to the community the facts concerning the Y. M. C. A., its need of a building, and the great benefit that a new equipment would be to the city. Not a cent of money will be solicited at the gathering, as was stated on the invitation. R. H. Trent, the president of the association, when interviewed on the proposed building, said yesterday:

Model Club Idea.

"The older business men of the community nearly all belong to one or more clubs, such as the Pacific, University and Commercial clubs, and find them to be not only great conveniences, but almost necessities in our present day social and business life. I don't believe that the people of Honolulu could make a better investment than to provide a model club for the young men and boys of the community; a place architecturally attractive; with

well stocked reading rooms, game rooms, gymnasiums, baths, basketball and handball courts and such, and some well appointed dormitories.

"Such a club, conducted by the Y. M. C. A., with its modest membership fees and dues, would, in my opinion, exert a great influence for good in the community, and would be a help to better things for many a young man and boy. I am confidently expecting to see Honolulu unite as one man on the proposition to give the Y. M. C. A. a new building suitable for its purposes, and shall be happy myself to have some small part in it."

This seems to be the idea that commends the association to many of the best men—the providing of the best benefits of club life for the hundreds of young men in Honolulu. In addition to the privilege of social life, the association provides education, recreation, physical exercise and religious instruction to large numbers of men.

Try It For One Pie!

Mince Pie is the great test of home cooking. To make wholesome and appetizing mince meat will tax the patience and ability of the best home cook. It involves so much care and labor that it is as unpopular in the kitchen as it is a favorite at the dining table.

TEA GARDEN Mince Meat

is ready for instant use and the most delicious combination ever made for a pie. Try it for one pie; its toothsome flavor will prove a surprise to you; it is deliciously good, absolutely wholesome, and much cheaper than the home made kind.

Comes in glass jars with glass covers; it keeps perfectly. Insist on Tea Garden Mince Meat. Costs no more than ordinary varieties, but oh! how different.

CONSERVATION AND ARBOR DAY, NOV. 12

Governor Frear expects soon to issue a proclamation calling for the observance of the second Friday in November, which will be November 12, as Arbor and Conservation Day.

Heretofore only Arbor Day has been observed, but the Governor says that so much has developed along the line of conservation during the past year that he feels that this should also be properly observed and celebrated. "I think it would be well," said the Governor yesterday, "for the schools to get a little broader view of conservation." Superintendent Babbitt and the Woman's Rivers and Harbors Congress of Hawaii are making preparations for the suitable exercises in the schools. The Board of Agriculture and Forestry has for some time been making preparations for the distribution of a large number of trees and shrubs to be set out on Arbor Day.
